

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

HEALTH OFFICE.

PHILADELPHIA, February, 1886.

To the Select and Common Councils of the City of Philadelphia.

GENTLEMEN :—

In obedience to law, I have the honor to present you my Annual Report of the Registration of Births, Marriages, and Deaths, which have occurred in the City during the year eighteen hundred and eighty-five.

With high respect,

Your obedient servant,

M. VEALE,

Health Officer.

HEALTH OFFICER'S ANNUAL REPORT
OF
BIRTHS, MARRIAGES, AND DEATHS.
1885.

REGISTRATION DEPARTMENT,

HEALTH OFFICE, *Philadelphia, January, 1886.*

To the President and Members
of the Board of Health.

GENTLEMEN:—In accordance with the Act of Assembly, approved March 8, 1860, the following abstract of births, marriages, and deaths is respectfully presented, through you, to City Councils, for the year ending December 31, 1885:

The number of births registered during the year amounted to twenty-two thousand six hundred and fifty six (22,656)—an increase over the previous year of four hundred and ninety-six (496). The number of marriages were seven thousand six hundred and seventy-six (7,676)—a decrease from previous year of nine hundred and sixty-one (961). The deaths amounted to twenty-one thousand three hundred and ninety-two (21,392)—an increase over previous year of one thousand three hundred and ninety-three (1,393).

The following table shows the ratio of deaths with population for the past twenty-five years :

Years.	Population.	Deaths.	Deaths to 1,000 persons living.	Persons living to 1 death.
1861.....	576,408	13,540	23.49	42.57
1862.....	587,287	13,864	23.60	42.36
1863.....	598,166	14,220	23.78	42.06
1864.....	608,045	15,875	26.10	38.30

October	1,868	973	895	23	20	46	32	19	
November	2,011	1,069	942	24	20	40	25	15	1
December	1,896	935	961	22	19	50	41	15	
Total	22,656	11,816	10,840	310	256	556	486	221	1

The number of births in each quarter of the year was as follows :

First quarter, ending March 31.....	5,732
Second " " June 30.....	5,216
Third " " September 30.....	5,933
Fourth " " December 31.....	5,775
	<hr/>
	22,656

The following table presents the births in each Ward during the year 1885 :

TABLE II.

BIRTHS IN EACH WARD, 1885.			
First.....	1,356	Twelfth.....	876
Second.....	663	Thirteenth.....	885
Third.....	395	Fourteenth.....	471
Fourth.....	685	Fifteenth.....	1,171
Fifth.....	373	Sixteenth.....	514
Sixth.....	242	Seventeenth.....	643
Seventh.....	610	Eighteenth.....	756
Eighth.....	269	Nineteenth.....	1,444
Ninth.....	160	Twentieth.....	1,079
Tenth.....	392	Twenty-first.....	526
Eleventh.....	391	Twenty-second.....	830
		Twenty-third.....	506
		Twenty-fourth.....	1,271
		Twenty-fifth.....	1,243
		Twenty-sixth.....	1,078
		Twenty-seventh.....	741
		Twenty-eighth.....	1,136
		Twenty-ninth.....	1,275
		Thirtieth.....	650
		Thirty-first.....	850
		Unknown.....	175
		Total.....	22,656

The largest number of births occurred in the Nineteenth Ward,—one thousand four hundred and forty-four (1,444), and the lowest in the Ninth Ward,—one hundred and sixty (160).

MARRIAGES.

The number of marriages registered during the year 1885, amounted to seven thousand six hundred and seventy-six (7,676), a decrease from previous year of nine hundred and sixty-one (961) or 11.16 per cent.

The number of marriages in each quarter of the year were as follows :

First quarter ending March 31.....	1,812
Second quarter ending June 30.....	2,001
Third quarter ending September 30.....	2,358
Fourth quarter ending December 31.....	1,505
	<u>7,676</u>

TABLE III.—MARRIAGES. *Nativities of the Parties.*

NATIVITIES.		BIRTHPLACE OF BRIDES.			Total of grooms.
		United States.	Foreign.	Not given.	
Birthplace of grooms.	United States.....	4,634	389	31	5,054
	Foreign	642	1,672	14	2,328
	Unknown	51	14	229	294
Total of brides.....		5,327	2,075	274	7,676

The number of marriages in which both parties were natives of the United States was four thousand six hundred and thirty-four (4,634), and the number of marriages in which both parties were of foreign birth was one thousand six hundred and seventy-two (1,672), and the number of marriages in which the nativities of both parties were unknown was two hundred and twenty-nine (229).

The number of men married, natives of the United States, amounted to five thousand and fifty-four (5,054), and the number of women, five thousand three hundred and twenty-seven (5,327); the nativities of two hundred and ninety-four (294) men, and two hundred and seventy-four (274) women have been omitted.

The number of men of foreign birth married amounted to two thousand three hundred and twenty-eight (2,328), of whom six hundred and forty-two (642) married women of the United States; one thousand six hundred and seventy-two (1,672) married women of foreign birth.

The following table will show the ages of the parties married during the year 1885:

TABLE IV.—MARRIAGES. *Age of the Parties.*

		AGES OF THE WOMEN.								Total of men.
		Under 20.	20 to 25.	25 to 30.	30 to 40.	40 to 50.	50 to 60.	60 to 70.	Not given.

The mortality of adults amounted to eleven thousand three hundred and twenty-two (11,322), an increase over the previous year of seven hundred and one (701), and the mortality of children ten thousand and seventy (10,070), an increase of previous year of seven hundred and two (702)

The number born in the United States amounted to fifteen thousand seven hundred and sixty (15,760), four thousand eight hundred and fifty-eight (4,858) were of foreign birth, and seven hundred and seventy-four (774) whose nativities were unknown.

Abscess.—The number of deaths so reported amounted to one hundred and four (104), an increase of eight (8) over the previous year; seventy-nine (79) were adults, and twenty-five (25) were children.

Cancer.—The number of deaths amounted to four hundred and eighty seven (487), an increase over the previous year of eleven (11); see table VI, for classification.

Cerebro-Spinal Meningitis.—The number of deaths so reported amounted to eighty-seven (87), a decrease from previous year of thirty-seven (37); five (5) were adults and eighty-two (82) were children; fifty-four (54) were males and thirty-three (33) were females: fifty-four were under five years of age.

Consumption of the Lungs.—The number of deaths amounted to two thousand eight hundred and twenty-one (2,821), an increase over the previous year of twenty (20); two thousand five hundred and five (2,505) were adults and three hundred and sixteen (316) were children; one thousand nine hundred and fifteen (1,915) were natives of the United States; seven hundred and sixty-nine (769) were of foreign birth, and one hundred and thirty-seven (137) whose nativity were unknown.

The deaths in each month of the year were as follows:

January.....	308	July.....	254
February.....	280	August.....	190
March.....	321	September.....	181
April.....	243	October.....	239
May.....	216	November.....	205
June.....	184	December.....	250

The largest number of deaths occurred in the month of March,—three hundred and twenty-one (321),—and the smallest number in the month of September,—one hundred and eighty-one.

The average deaths from this disease in each month.....							235	
"	"	"	"	"	"	"	week.....	54

Fever, Scarlet.—The number of deaths amounted to three hundred and seventy-five (375), a decrease from previous year of one hundred and sixty-five (165).

The deaths in each month of the year were as follows :

January.....	58	July.....	29
February.....	87	August.....	9
March.....	59	September.....	4
April.....	35	October.....	21
May.....	33	November.....	22
June.....	48	December.....	20

Hooping Cough.—The number of deaths so reported amounted to one hundred and thirty-two (132), an increase over the previous year of twenty-five (25).

Hydrophobia.—The following figures show the deaths from the above disease since 1860:

1860.....		1874.....	3
1861.....	1	1875.....	2
1862.....	4	1876.....	4

1871.....	1	1885.....	
1872.....	1		—
1873.....	1		60

Inflammation of Lungs.—The number of deaths amounted to one thousand five hundred and nineteen (1,519), an increase over the previous year of two hundred and sixty-six (266); eight hundred and four (804) were adults, and seven hundred and fifteen (715) were children; seven hundred and ninety (790) were males, and seven hundred and twenty-nine (729) were females.

Old Age.—Nine hundred and thirty-four (934) died of old age, of whom three hundred and seventy-two (372) were between the age of seventy and eighty, four hundred and sixty (460) between the age of eighty and ninety, and eighty-eight (88) between ninety and one hundred, and ten (10) over the age of one hundred.

Poisoning.—The number of deaths from accidental poisoning amounted to thirty (30), fourteen (14) more than previous year. They were classified as follows :

Arsenic	1	Morphia.....	2
Blood	5	Opium	8
Carbolic acid.....	2	Oxalic acid.....	1
Chloroform.....	1	Shock.....	1
Concrete lye.....	1	Sulphuric acid.....	1
Cyanide of potassium.....	1	Not stated.....	5
Lead.....	1		

Small-pox.—The number of deaths from this loathsome disease amounted to only three (3); they occurred in the months of January, May, and June.

Suicide.—The number of deaths amounted to seventy-eight (78), a decrease from previous year of eleven (11), of whom sixty-two (62) were males and sixteen (16) were females. They were classified as follows :

Arsenic	1	Paris green	2
Chloroform.....	1	Poison	1
Cutting throat.....	8	Prussic acid.....	2
Cyanide of potassium.....	1	Railroad	1
Drowning.....	4	"Rough on Rats".....	4
Hanging.....	28	Shooting.....	21
Laudanum.....	2	Stabbing	1
Jumping from window.....	1		

Sun-stroke.—Ninety-six (96) deaths so reported; seventy-three (73) were males and twenty-three (23) were females; they were an increase over the previous year of sixty-four (64).

Tumor.—The deaths amounted to sixty-four (64); twenty-three (23) were males and forty-one (41) were females. They were classified as follows :

Axilla.....	1	Pelvis	2
Bowels.....	1	Peritoneum.....	1
Brain	10	Shoulder.....	1
Cheek	1	Stomach.....	10
Eye.....	1	Thigh.....	1
Jaw.....	1	Uterus	12
Kidneys.....	2	Abdominal.....	5
Neck.....	5	Diffused.....	1
Pancreas.....	1	Ovarian.....	8

TABLE IX.

(Still-births excluded.)

The following table shows the percentage of deaths (to total mortality) during specified periods of life compared with a similar statement of the mortality in the year 1884 :

1884.					1885.				
Under 1 year	4,573	Being	22.86	Per cent.	4,905	Being	22.92	Per cent.	
1 to 2	1,842	"	6.71	"	1,574	"	7.35	"	
2 to 5	1,691	"	8.45	"	1,709	"	7.98	"

September.....	752	731	723	760	1,483
October.....	834	816	938	712	1,650
November	662	605	755	512	1,267
December.....	829	872	1,025	676	1,701
	10,304	10,488	11,322	10,070	21,392
Excess of males over females.....					416
Excess of adults over children.....					1,252

The largest mortality occurred in the month of July, two thousand six hundred and eighty-five (2,685), and the lowest in the month of November, one thousand two hundred and sixty-seven (1,267). The excess of males over females was four hundred and sixteen (416), and adults over children, one thousand two hundred and fifty-two (1,252).

Premature births and still-born are not included in the above figures.

TABLE XII.—DEATHS IN EACH WARD.

(Still-births not included.)

The following table of mortality in each ward, with population (according to Tenth Census), with ratio of deaths to population, and the percentage of deaths in each ward to the total mortality.

Wards.	Population Tenth Census.	Area in square miles.	Deaths.	Deaths to population.	Percentage of deaths to total mortality.
First.....	43,085	5.509	1,117	1 in 38	5.22
Second.....	28,498	.442	686	1 in 41	3.17
Third	18,271	.191	440	1 in 41	2.05
Fourth.....	18,853	.229	661	1 in 28	3.09
Fifth.....	16,368	.321	498	1 in 32	2.32
Sixth.....	10,004	.321	223	1 in 44	1.04
Seventh.....	31,087	.439	909	1 in 36	4.24

Total.....	364,517	166,869	437,772

The above statement shows a summary of all returns of births, marriages and deaths made to this Department since the law commenced operation, July 1, 1860. Since the year 1875, still-births, premature births and bodies brought from other localities have not been included, thus showing since that year the actual deaths in the city.

Respectfully submitted,

M. VEALE,
Health Officer.

Attest: GEO. E. CHAMBERS,
Registrar.

APPENDIX.

TO THE

HEALTH OFFICER'S REPORT,

1885.

INTERMENTS

DURING

JANUARY, 1885.

Interments in the City of Philadelphia, January, 1885.
